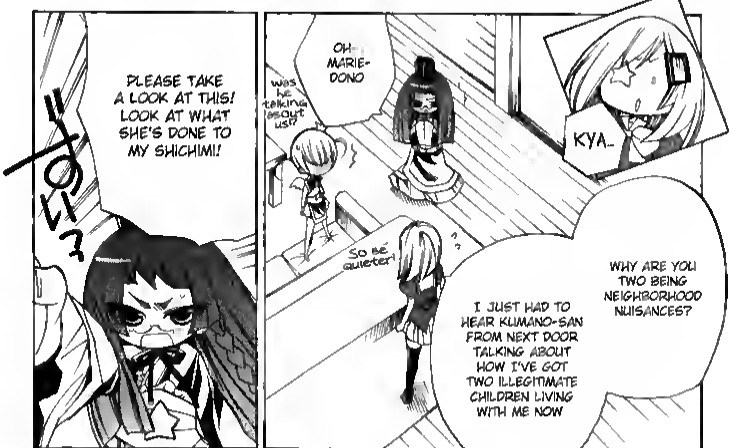
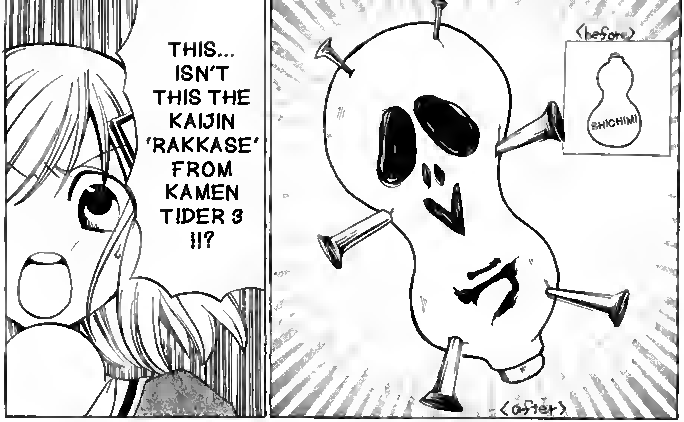
IT'S YOUR FAULT FOR BRINGING THAT WEIRD LOOKING BOTTLE INTO THE HOUSE!
HOW COULD YOU SAY THAT!? YOU KNOW I ALWAYS PUT SHICHIMI INTO MY NIKUMAN, ANMAN AND ANNINDOUFU!



KYA-
OH- MARIE-DONO
Was he talking about us!?
So be quieter
I JUST HAD TO HEAR KUMANO-SAN FROM NEXT DOOR TALKING ABOUT HOW I'VE GOT TWO ILLEGITIMATE CHILDREN LIVING WITH ME NOW
WHY ARE YOU TWO BEING NEIGHBORHOOD NUISANCES?
PLEASE TAKE A LOOK AT THIS! LOOK AT WHAT SHE'S DONE TO MY SHICHIMI!
HUH?



THIS... ISN'T THIS THE KAIJIN 'RAKKASE' FROM KAMEN TIDER 3 !!?
<before>
SHIOHIN!
<after>

Eeh? That's me!? Wait a minute.
Let me explain! Kamen Tider is a SFX show about a 30 year old loli-con, NEET, hikikomori who is suddenly chosen to become a warrior of justice and has to fight against all the evils in the world!
However this was a bit too edgey for a Sunday morning kids show and got a lot of complaints from the PTA. It is a rare and treasured show that only lasted for 3 months.
The evil organization as well as the human victims were all little girls so the story was a bit confusing right off the bat.
Kyaa!

PLEASE REFLECT ON WHAT YOU'RE GETTING SO FIRED UP OVER !!! ...
THAT THING SHE COULD DO WITH HER CROTCH WHERE
RAKKASE WAS AWESOME!!
I can show you my collection if you want!
YOU REALLY KNOW YOUR STUFF !!!

CHAPTER 2 NOTES

- pg 61: Shichimi or 'Seven Flavors' is a common Japanese spice mixture. As for the foods she mentions, they're nikuman (meatbuns), anman (buns filled with red bean jam) and annindoufu (almond jelly).
- pg 62: Kamen Tidori - obviously a parody of the Kamen Rider series. The humanoid monsters on the show are referred to as kaijin ('strange being') Ryofuko wrote 'RA' on the bottle, which stands for 'Rakkasei' I suppose.
- pg 62: 'Lolicon NEET hikikomori' is best used to describe a social recluse who is 'not in education, employment or training' and has a penchant for little girls.
- pg 63: Sugamo's a popular district to purchase shichimi from.
- pg 64: The Nanman were aboriginal tribes who lived in southwestern China. The most likely fictional characters Meng Huo and Zhurong were one of them.
- pg 74: Monga Meat - or 'Ano Niku' ('That Meat') is the classic image of meat you see in most manga and anime. It doesn't really exist but people imagine it must taste really good.
- pg 78: Kirei Sweapon is a trident called Sansentou (Three Pointed Blade) It's also the weapon used by Youzen (Erlang Shen) in Houshin Eng (Fengshen Yanyi).
- pg 79: 'kirei samasama yoohoo morimori' like 'the Yellow Turbans previously, he's chanting a spell. Except this one isn't as easy to translate. Umm... 'youhou morimori' could mean 'Apiculture Surge' or 'Something Eggplant Something'.
- pg 81: Chinkyuu's skill, 'Hissatsu Eiyuu Shourai' is better translated as 'Sure-Kill Rising Heroes'. I made a mistake and was too lazy to fix it...
- pg 85: 'Hachi' is the Japanese word for 'bee'. So typical girl names for them would be 'Hachimi' and 'Hachiko'.
